- Baby's first teether stimulating each of his five senses
- Light and easy for Baby to grip
- Very soft - stimulating soothing physiological and emotional responses
- Made of 100% natural rubber and food grade paint
- Made in France
- From 0 month +

Full description

Born in 1961 in the heart of Paris, Sophie la girafe is the symbol of a child's first early learning teether and enjoys genuine affection from babies and parents. This teether stimulates each of Baby's senses and is a must have adored by babies from all around the world. Made from 100% natural rubber derived from the latex of the Hevea tree, Sophie la girafe is still traditionally produced, a process involving over 14 manual operations.

Sight: The dark and contrasting spots all over Sophie la girafe's body provide visual stimulation and make her easily recognizable to baby. She soon becomes a familiar and reassuring object.

Hearing: Her squeaker keeps baby amused, stimulates his hearings, and helps him to understand the link between cause and effect.

Taste: Sophie la girafe is very flexible and has lots of parts for baby to chew (ears, horns, legs). She is perfect for soothing baby's sore gums when teething and is completely safe. Made of 100% natural rubber and foodpaint.

Touch: Sophie la girafe is perfect for baby's small hands. She is very light and her long legs and neck are easy for baby to grip. She is very soft to touch, just like baby's mummy, stimulating soothing physiological and emotional responses.

Smell: The singular scent of natural rubber (from Hevea tree) makes Sophie la girafe very special and easy for your child to identify amid all his other teethers.

Known as "The Star Teether", now distributed in 80 countries and multi awarded, she has been adopted by many celebrities' babies.

Care instructions

Under normal use of Sophie la girafe and in accordance with packaging instructions, cleaning the teether's surface using a cloth moistened with soapy water is all that is needed. The teether's whistle leaves a hole on the surface. Users must therefore ensure that water does not enter inside the product during cleaning. For this same reason, it is important to refrain from rinsing or submerging Sophie la girafe and from placing the teether in the dishwasher or sterilizer.

- Comfort Baby, can help satisfy Baby's sucking impulse
- Enables a natural development of Baby's palate and jaw
- Ventilations holes that maintain good air circulation
- Made of 100% natural rubber
- From 0 to 6 months

Full description

100% natural for Baby's highest comfort!
 Soft for Baby's face, this pacifier is made from 100% natural rubber: nipple, shield and ring.
 Made in one piece it ensures the highest hygiene (no seals and slots).
 The physiological nipple enables a natural development of Baby's palate and jaw, while its flexibility soothes Baby's sore gums. Smart, some ventilations holes maintain the good air circulation for Baby's comfort.
 The ergonomic butterfly design is perfectly adapted to Baby's nose and chin.

Two sizes available : 0-6 months and 6-18 months.

Care instructions

Before use, thoroughly clean the pacifier by boiling in water for 5 min and let it cool down. Always clean the pacifier before use and check that the mouthpiece (nipple) is undamaged. For both safety and hygiene reasons, the pacifier should be discarded after a maximum of two months use.
 When not used, keep in a clean, dry place out of direct sunlight or contact with a source of direct heat. It should be stored in a closed, clean and dry container.
